

**From the top menu, select
Tools → TCG Card Game Effects
→ Welcome Setup, then follow
the setup steps to ensure the
asset functions correctly.**

You only need to adjust these effects to match your own card size once.

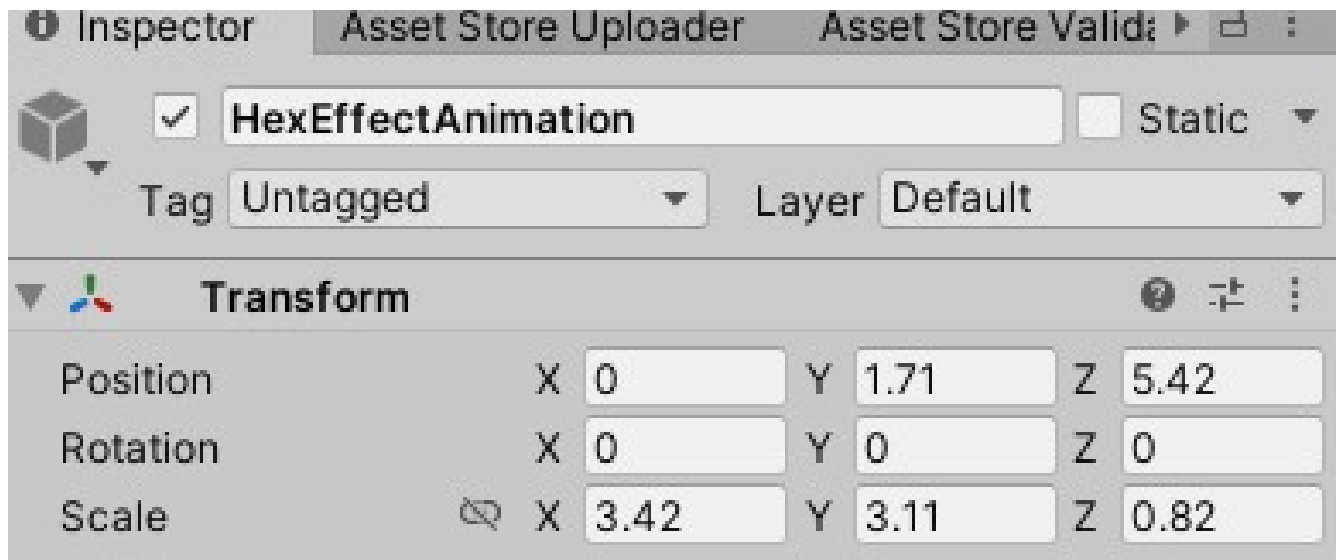

HexEffect
CardSlice
Claw
BlackHole
Little Pieces
Fire

This script takes your sprite and assigns the animation mesh. So when your card changes, the animation mesh card will be your sprite.

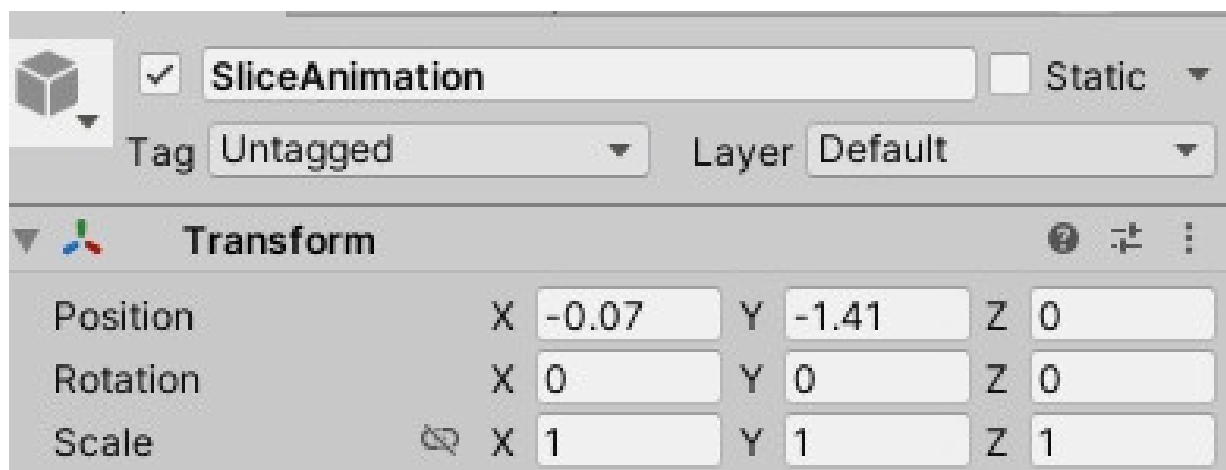

If your card size does not match the effect, you need to resize these objects.
